

Brother of General P. X.  
Kelley, USMC Commandant

ALBERT J. KELLEY

Dr. Kelley is President of Arthur D. Little Program Systems Management Company. He is responsible for supervision and management of large, complex projects and developments.

Immediately prior to joining Arthur D. Little, Inc., Dr. Kelley was Dean of the School of Management of Boston College. In this capacity he was also a consultant to public and private organizations and developed seminars on management of technology organizations, project management, long-range planning, and entrepreneurship. For several years he has given a seminar on Project Management under the auspices of the American Institute of Aeronautics and Astronautics.

Prior to joining Boston College, he served with the National Aeronautics and Space Administration (NASA) as Program Manager of the Agena Vehicle Program, Director of Electronics and Control, and Deputy Director of the NASA Electronics Research Center. In these positions, he was responsible for management of a major NASA space vehicle program, and for the research and development of NASA electronics, including instrumentation, sensors, computers, and communications. He was also Deputy Director of the NASA Ad Hoc Manned Lunar Landing Study which led to Project Apollo. He was awarded the NASA Exceptional Service Medal for these activities.

As a Naval officer, in addition to operational duty he served as Project Manager of the Eagle Weapon System; Project Engineer on the F-4 aircraft project team; and as an experimental test pilot in fighter aircraft at the Naval Air Test Center, Patuxent River.

Dr. Kelley graduated from the U.S. Naval Academy and completed graduate studies in systems engineering at M.I.T. which awarded him a Doctor of Science in Engineering (Instrumentation and Control). He completed the Executive Management Program at the University of Minnesota, and the Advanced Management Institute at Carnegie-Mellon University.

He is a Fellow of the Institute of Electrical and Electronics Engineers. He is a member of Tau Beta Pi, Sigma Xi, and Beta Gamma Sigma honor societies.

Dr. Kelley is a Director of the National Space Institute, a member of the Space Applications Board of the National Academy of Engineering, and has served as a White House advisor and as Chairman of the Board of Economic Advisors of the Commonwealth of Massachusetts.

His professional activities at Arthur D. Little have included consulting on project management, corporate strategy and systems engineering to U.S. and international construction projects, the U.S. Department of Energy and Department of Defense, aerospace and defense companies. He is the editor of the book "New Dimensions of Project Management" and is listed in "Who's Who in America" and "American Men and Women of Science."
